Today, you are an archeologist, a historian; it is your job to infer about the artifacts that you "dug" up. You know nothing about the person beyond the objects in your possession. Carefully inspect the objects to determine what can be concluded about this "mystery" person.

Object	What I believe the object to mean...
1. Soft ball Trophy	She got something good in soft ball like got the most home runs.
2. Team picture	She was on a team (soft ball)
3. A Honor Roll	She got <u>ALL</u> A's!
4. Bible	She is a Christian.

After the person "came to life" I discovered...

She played soft ball on D-Rays. Her nick  
name was slugger!! She got all A's all  
year. She got the Bible at the hospital  
when she was born! 😊
