TO THE PRINCIPALS AND TEACHERS IN THE COUNTY SCHOOLS:

Throughout the war the schools of Darlington County have been outstanding in their contribution to every patriotic task. In this final campaign of the National War Fund the schools are confidently counted upon to maintain their splendid record.

Darlington County is expected to provide \$17,325.00 of a national fund of \$115,000,000.00. To raise this large sum every possible contributor must be interviewed. The teachers and pupils themselves are an important factor in the situation, both for the contributions they can make and for the assistance they can give in dealing with the rural population.

May I not count upon each of you to organize your class and complete this campaign next week?

Sincerely yours,

Samuel Want
